

WHAT IS APFIT?

The **Accelerate the Procurement and Fielding of Innovative Technologies** (APFIT) program started in Fiscal Year 2022 to provide procurement funding for innovative projects that have completed development and are ready to transition into operational use.

Funding amounts of \$10M-\$50M are awarded to projects with small business or non-traditional performers to accelerate initial production and reduce the overall procurement timeline.

The Department conducts competitive down-select processes each year using evaluation criteria including impact to the warfighter, sustainment support, and applicability across Services and Defense Agencies.

Projects are awarded in coordination with a Service, Combatant Command, Defense Agency, or other organization and have included everything from the procurement of undersea sensors to the manufacture and launch of satellites.

Personnel may request to join the APFIT distro list here.

Visit the APFIT website for more information.

APFIT

*Accelerate the Procurement and
Fielding of Innovative Technologies*

Does my program qualify for APFIT funding?

- ✔ RDT&E complete and the Department is interested in procuring
- ✔ U.S.-based small business or non-traditional defense contractor
- ✔ Meets FY25 NDAA Sec. 861 authority*
- ✔ \$10M-\$50M could be used to accelerate procurement
- ✔ Project is endorsed by an APFIT-designated submitting organization

**A company that during the one-year period preceding the issuance of this solicitation, has not performed on contracts and subcontracts for the Department under which the aggregate obligations of the Department to such entity for such period exceeds \$400,000,000*

SUBMITTING ORGANIZATIONS

Services

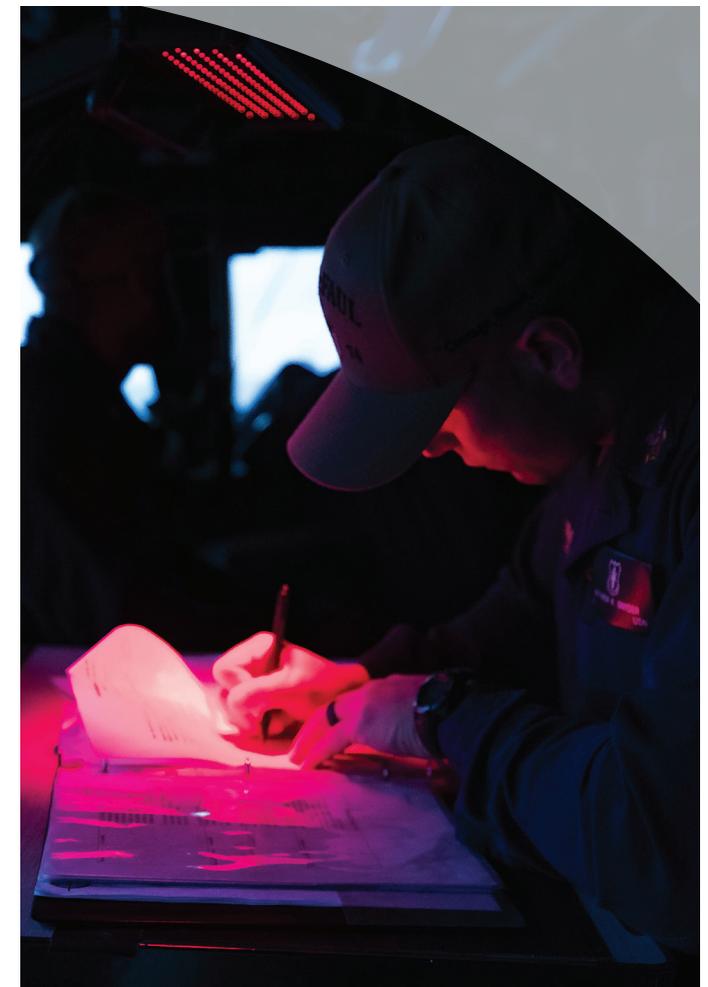

Combatant Commands

Agencies

- Defense Health Agency
- Defense Intelligence Agency
- Defense Logistics Agency
- Defense Threat Reduction Agency
- Missile Defense Agency
- National Geospatial Intelligence Agency
- National Reconnaissance Office

Other Organizations

- DARPA
